Cakes always accompany our happy moments and they delight a soul when they are offered to it. At Natural, we are a team and our goal is to multiply the smiles with every cake we create, with great care and with carefully chosen ingredients.

01 | Tiramisu

This cake was inspired by the famous Italian dessert with the same name. Using its well-loved characteristics, we created our own version, as any passionate confectioner would do. In order to get the right taste, we used three layers of soaked sponge cake with vanilla flavor and we added two other layers of instant coffee cream. To add the finishing touches, we dusted our dessert with powdered sugar and cocoa.

03 | Vanilla flavoured cake with cocoa

As there always have been two sides, one of those who love everything containing cocoa and the other one, those who love vanilla, we drew the conclusion that we have to reconcile them with one cake. We celebrated the union of cocoa and vanilla in a soft soaked sponge cake, with a lot of cocoa and we completed with a cream flavored with butter and vanilla. On top, we sprinkled flakes of cocoa glaze. The success of this cake is confirmed with every bite.
